AND RIVER PLATE NEWS.

No. 1466—Sixth Year. BUENOS AYRES, FRIDAY, DECEMBER 28, 1866. Circulation 2500

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills of credit ... drawn and taken on Montevideo, Rosario, Sta Fé, Santo Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

IMPORTANT TO SHEEP-FARMERS

SOUTH-DOWN SHEEP WASH,

(PURE EXTRACT OF TOBACCO).

This celebrated Sheep Wash possesses the following advantages:—

It completely cleanses the skin, thereby promoting the growth of the wool and improving its appearance, at the same time leaving no stain, a most desirable object to the sheep breeder.

It possesses remarkable healing properties and prevents contagion from skin diseases

For the scab, either as an ointment or wash, it is used with the best results.

It is soluble in water and easy of application, and can be used without the slightest danger to sheep or lambs.

By the use of this material the farmer is relieved from the laborious and disagreeable preparation of the Wash on his own farm.

The South-Down Sheep Wash is now on Sale at a reduced price at

xp.d7 THE ADMINISTRATION.

LA ESTRELLA.

ARGENTINE FIRE INSURANCE CO.

AT FIXED PREMIUM.

Authorized by decrees of the National and Provincial Governments.

CAPITAL 2,000,000 HARD DOLLARS.

DIRECTORS.

Sr. D. Tomas Armstrong, *President.*
Samuel B. Hale, *Vice President.*
Eduardo Lumb,
José Martinez de Hoz,
Ambrosio Demarchi,
Jorge Drabble,
Manuel S. de Zumaran.

MANAGER—Sr. D. FRANCISCO F. MORENO.
Inspector-General—Dr. Federico Liefrink.
Co.'s Office, 118 Calle Piedad, altos.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses OCCASIONED BY FIRE which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p. cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic: and also from the circumstance of large capital.

The Company's funds are deposited in the Provincial Bank.

Further particulars will be furnished on application at the Company's Offices. 93 xp n15

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills of Exchange are drawn and taken on Montevideo, Rosario, Santa Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 3 p.m.

Notice.

We, the undersigned, beg to Caution the Public and the Trade against the fraudulent imitations of our Brandy in Cases, which are frequently exported from Europe with forged labels and trade mark.

In order to protect our interest, and to offer a guarantee to consumers, we have appointed as our sole agents for Buenos Ayres, Messrs John Best and Brothers, to whom the trade must apply for our genuine articles. The name of said firm is always affixed on all the bottles of our direct shipment.

IMPORTANT TO SHEEP-FARMERS

SOUTH-DOWN SHEEP WASH,

(PURE EXTRACT OF TOBACCO).

This celebrated Sheep Wash possesses the following advantages:—

It completely cleanses the skin, thereby promoting the growth of the wool and improving its appearance, at the same time leaving no stain, a most desirable object to the sheep breeder.

It possesses remarkable healing properties and prevents contagion from skin diseases

For the scab, either as an ointment or wash, it is used with the best results.

It is soluble in water and easy of application, and can be used without the slightest danger to sheep or lambs.

By the use of this material the farmer is relieved from the laborious and disagreeable preparation of the Wash on his own farm.

The South-Down Sheep Wash is now on Sale at a reduced price at

66 Calle Moreno and 255 Calle Defensa.

xp.47 THE ADMINISTRATION.

LA ESTRELLA.

ARGENTINE FIRE INSURANCE CO.

AT FIXED PREMIUM.

Authorized by decrees of the National and Provincial Governments.

CAPITAL 2,000,000 HARD DOLLARS.

DIRECTORS.

Sr. D. Tomas Armstrong, *President.*
Samuel B. Hale, *Vice President.*
Eduardo Lumb,
José Martinez de Hoz,
Ambrosio Demarchi,
Jorge Drabble,
Manuel S. de Zumaran.

Manager—Sr. D. FRANCISCO F. MORENO.
Inspector-General—Dr. Federico Liefrink.
Co.'s Office, 118 Calle Piedad, altos.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses occasioned by fire which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p. cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic: and also from the circumstance of large capital.

The Company's funds are deposited in the Provincial Bank.

Further particulars will be furnished on application at the Company's Offices. 93 xp n15

LATEST FROM EUROPE.

ONE DAY LATER THAN FRENCH PACKET.

MAXIMILIAN LEAVES MEXICO.

We have the *Evening Mail* of Nov. 23rd and extract as follows:—

Paris, Nov. 22, Evening.

The *France* of this evening publishes an article upon Mexico which says:—

"The arrival of General Castelnau in Mexico and the attitude assumed by the United States, a coincidence which the Emperor Maximilian considered to have completely changad the situation of affairs, have caused him to modify his early resolutions. Before his departure for Vera on the 22d of October the Emperor placed his authority in the hands of Marshal Bazaine."

"In view of this intelligence," adds the *France*, "the source of which is above suspicion, it is permitted to consider the speedy departure of the Emperor Maximilian for Europe as extremely probable, if, indeed, it has not already taken place."

Florence, Nov. 21.

The King arrived here at 1 o'cleok to-day, accompained by the Princes Amadeus, Umberto, and De Carignano. His Majesty was received at the railway station by the authorities. The troops and National Guard were under arms, and the immense multitude which had assembled greeted His Majesty with prolonged cheering.

The streets are decorated with flags, and the city will be illuminated this evening.

Admiral Persano has been summoned to appear before the High Court of Justice for examination on the 1st of December.

It is stated that the Italian Government will take upon itself the payment of a proportionate part of the Pontifical Debt, as it existed in 1860. With regard to the arrears since that period, they would be consolidated, and the interest thereon defrayed by Italy.

NEWS BY THE NEWTON.

The remarkable clearness of the atmosphere, Nov. 12th, this morning was singularly favourable for astronomical observations, and the great periodical appearance of meteors or shooting stars which was to recur between the hours of one o'clok and sunrise, was witnessed in the metropolis under very favourable conditions. Great numbers of people were abroad in the streets looking for the phenomenon, and at some points, notably on the bridges and in Trafalgar-square, crowds of persons assembled, all of whom were star-gazing. The heavens were deeply blue, and the stars very bright. Almost directly after one o'clock a.m. the sky was first occasionally, then frequently, and soon contantly, streaked with the trains of the countless stars which shot across the heavens. This extraordinary meteoric display occurs once in thirty-three years, and is, of course, looked forward to by scientific men with great interest.

The *Invalide Russe*, of the 3rd, contains the manifesto of the Emperor Alexander, calling the conscripts of the empire to their standards. The official document only says that the object is to complete the army and the fleet; but it will be useful under present circumstances, observes the *Debats*, to note that the recruitment this year has taken place simultaneously in the two zones of the empire, which is a departure from the custom hitherto pursued, according to which the recruiting has been effected alternately. Everything denotes an actual augmentation of the effective of the Russian army, and the reinforcements which it will receive this year may be set down at 300,000 men.

A message from San Francisco, California, dated the 5th instant, was received in London by Atlantic Cable on the morning of the 6th before business hours.

A New York paper says—"Last evening at six o'clock a telegraphic despatch was sent from New York to London for the payment of a large sum of money. At half-past eleven o'clock this morning a message was received in this city endorsing the payment of the same."

At four o'clock on Friday afternoon the ceremony of presenting the statue of the late Sir Henry Marsh to the King and Queen's College of Physicians took place in the grand hall of the institution before a numerous and distinguished assembly. The President, Dr. Stokes, occupied the chair, the Fellows and members attending in their robes. Dr. Banks, in an appropriate address, presented the statue on the part of the subscribers, the President of the college signifying its acceptance in suitable terms. The statue is the work of Mr. Foley, and in its execution he seems to have eclipsed all his previous efforts. It is placed in the hall of the College, in which it forms a very attractive feature. *Dublin Express.*

The French in Rome have disposed of the furniture of the military hospital. The Jews bought 4000 coverlids, and the Pontifical Government 40,000f. worth of stores. After the departure of the army of occupation the castle of St. Angelo will be occupied by the Roman legion, now at Viterbo. The Zouaves will also be concentrated in Rome.

THE NEW BANK-DIRECTORS.

The new board of directors for 1867 comprises 16 of our leading merchants and capitalists, and the selection is well received among commercial circles: they are all men of high standing and much experience. We give a short biographical sketch of each, for the information of those who may not be old residents in the country.

Dalmacio Velez Sarsfield, born at Cordoba, aged about 60, married: he is a doctor of laws, and stands at the head of his profession. He was mainly instrumental in placing the Provincial Bank on its present footing. He has held office under various Governments, and frequently writes in the columns of the *Nacional*, being a man of much versatility of genius. His name figures largely in the history of this country, and his latest work is the Civil Code, compiled with much labor by order of the Congress. He has numerous estancias, and a pretty country-seat near Almagro. Dr. Sarsfield claims to be descended by collateral line from General Sarsfield, Earl of Lucan, one of the brightest names in Irish history.

Francisco Balbin, formerly of the firm of Balbin & Plowes, auctioneers in this city. He is a native of Buenos Ayres, aged about 60, married, has often held high public employments, and is a noted chess-player.

Francisco B. Madero, a Buenos Ayrean, aged about 42; he has large estancias in the south, and a beautiful quinta near San Martin, on the western railway; he is connected by marriage with the family of Ramos Mejia, and proprietor of a printing-office.

John Best, born in Lancashire about the year 1830, unmarried. He belongs to the old-established firm of Best brothers, ship-owners, importers and exporters, of Liverpool and B. Aires: country-residence at Belgrano.

Edouard Bonnemason, a native of Bordeaux, aged about 50; of the firm of Bonnemason and Heydecker, a house of some 10 years' standing and one of the first in importance in the French trade. Mr. B. narrowly escaped being shot in the election riots last year, when casually passing the Government house.

Henry Cammann, born at Hanover, aged about 42, married. He is managing partner of the firm of Bieber & Co., an eminent German house of the import and export trade, and representatives in this city of the great banking-firm of Huth & Co. of London, which has had frequent business transactions with the Provincial Bank. Mr. Cammann was for many years Consul for the now extinct Kingdom of Hanover, and has been more than once bank-director.

Manuel Zumarán, a native of Castille in Spain, brother to the Spanish Consul in Montevideo, and one of our most eminent Spanish merchants; he is about 48 years old, and brother-in-law to H.E. Mr. Leal, Brazilian Minister, being married to Miss Lavalle, a relative of the renowned Argentine General of that name.

Samuel B. Hale, a native of Massachusetts, U. S., about 50 years of age, one of the oldest, wealthiest and most respected American residents, and connected by marriage with a respectable native family (Cortinas). Mr. H. is a large exporter of wool, and importer of lumber, a Gas-director, member of the municipality, &c., and has a large model estancia in the north. He has resided here over 30 years, and has a handsome suburban residence near Palermo.

Giuseppe Piaggio, a Genoese, age about 36, of the firm of Piaggio fratelli, which does a considerable trade with Italy; he is married to Mdlle. Cazon, niece of the Chief of Police; his rural palace at Belgrano is universally admired.

Richard O'Shee, descendant of an old Irish family which was exiled in the 17th century, and settled in Seville. Mr. O'Shee was, however, born under the British flag, at Gibraltar, and is about 44 years of age. He has long been connected with the Brazilian trade, and is married to a Montevidean lady. Last year Mr. O'Shee made a trip to Durope and visited the country of his ancestors. He has a pretty country-house at San Fernando, and his town-house was formerly the Bishop's palace.

Manuel Ocampo, a native of Buenos Ayres, and representative of an old Cordobese family: his father was Governor of Cordoba; he has himself been Governor of Buenos Ayres, and at the termination of his office was presented with a fine dinner-service of plate. His house does a great business with the provinces. He is married, and about 55 years of age.

Marcelino Ugarte, doctor of laws, born at Buenos Ayres and married to Mdlle. Lavalle. He is a deputy to Congress for the province of Buenos Ayres, and as a debating orator stands almost unrivalled. His age may be 40 years.

Manuel José Guerrico, an estanciero of Buenos Ayres, aged about 60, married, and proprietor of large landed estates and house-property.

Mariano Acosta, native of Corrientes, a lawyer by profession, and estanciero by occupation; only remarkable as having held office for some time under Governor Saavedra. He is married to a niece of the Archbishop.

Apolinario Benitez, born at Gualeguaychú in 1831. His father was a Portuguese and served as Colonel in the wars of Entre-Rios. His name is connected with army contracts banking, &c. He is unmarried: his sister is wife to Governor Dominguez of Entre Rios.

Luis M. Solé, a native of Buenos Ayres and produce broker, aged about 40: we believe he has also a barraca.

THE LAS CONCHAS PIC-NIC.

(Communicated.)

None of the many Christmas parties passed off so well, and were attended with such complete success, we are sure, as the 'pic-nic' which took place at Las Conchas, in conjunction with the gunboats Shamokin and Wasp. Early on Tuesday a special train took out a party of about twenty ladies and a few gentlemen from town, and after picking up some friends at San Isidro, arrived at the Tigre soon after nine. Here a few gentlemen joined the party, and proceeded to the Chateau d'If, at Las Conchas, an old tumble-down building, formerly the country residence of the Spanish Viceroy, and now the quarters of the Las Conchas Rowing Club, which, though only numbering six members, is yet the most flourishing of these clubs. Its members meet at the chateau every Saturday, and remain there until Monday morning, rowing in the placid waters of the Lujan and Carapachay, generally in company with some of the fair ladies of the neighborhood, and spending the evenings in delightful society at the various 'quintas' in Las Conchas, where 'los Ingleses' are so popular.

The breakfast took place at the 'chateau,' and being cooked and served up by the 'Sociedad' themselves, in the most approved bachelor style, and amidst uproarious laughter and chaffing good humor, passed off most pleasantly. A general move was then made for the Shamokin, after the gentlemen had strengthened the 'inner man,' whilst the ladies were enjoying the glorious view from the high 'azotea,' and singing glees, &c.: a loud clatter was then heard from below, the men having turned waiters, and were 'washing up,' to take their limited stock of crockery to the islands for dinner. After picking up a few ladies in Las Conchas the men embarked for the Shamokin, where they arrived on board at mid-day. They were received in the most polite manner by the popular Captain Crosbie and his officers, who escorted the ladies round the ship, and were most courteous and agreeable. And let me take this opportunity of thanking Captain Crosbie and the officers of the Shamokin for the invariable kindness which the members of the Chateau d'If have always experienced at their hands for themselves and the ladies whom they have had the honor of introducing on board, and who one and all cannot too highly express their appreciation of the hospitality and truly gentlemanly feeling which have always characterised their behavior to the numerous English visitors who have made a pleasure of visiting their ship. And on behalf of the British public generally, I also take this opportunity of publicly thanking them for the attention they have so kindly shown everybody since their arrival here.

At three o'clock the party left the Shamokin, and proceeded to one of the islands of the Lujan, where an 'azado,' and sundry delicacies were soon washed down by copious drafts of Cooper, Chateaux Margeaux, and champaigne. 'Quick's the word, and sharp's the action,' was our motto, and after one toast to the gentlemen who had taken the principal trouble in organising and carrying out this 'pic-nic' (no small task by the way), we again embarked and hurried on board the Wasp to have a dance before leaving the scene of so much enjoyment, in our special train at 7 p.m. Here we were met by the gentlemanly captain of the Wasp, and welcomed on board. After borrowing the toy-piano of the Chateau d'If, lent to the Shamokin during her sojourn in the Tigre by the members, dancing commenced with vigor, and lasted for an hour, when we had reluctantly to embark to catch the special train, which we in vain solicited the manager to keep until 9, or even 8, o'clock. Everybody knows how difficult it is to get ladies to start, and when they had to be packed into three or four boats, it took some time before we got off. However it was accomplished, and we got away in time to get to the station twelve minutes after seven, proud of our 'special,' which would of course wait for us and convey us contented and happy with our day's enjoyment back to Buenos Ayres, where a dance at the house of the kind lady 'chaperone' of the party, who had taken such trouble, in conjunction with the 'empresario,' to make all go straight and please everybody, was to wind up the day's amusement, which was destined to be remembered with pleasure by all who were present. But it was fated to be otherwise. Wind and tide wait for no man, it is said, and now, as it appears, it is the same with special trains on the Buenos Ayres Northern Railway. To our dismay, on landing at the stairs at twelve minutes past seven, our train was 'non est.' The 'impresario,' who had engaged it, would not believe it, and the ladies, who thought it a good joke, at first only laughed at the idea, but when it was ascertained from the station-master that it was a positive thing, and the fact stared us boldly in the face, we began to look serious and angry. The 'impresario' foamed, and almost swore, telling the station-master that he deserved to lose his place, &c.; but it was all to no purpose. The train was gone. We telegraphed at once to San Isidro, but got no answer at first. When the answer came the train had gone through San Isidro, and was on its way to Belgrano. We telegraphed to Belgrano to stop it there to await the manager's orders, adding that we would pay if necessary. Then we telegraphed to San Isidro again to the manager, imploring him to give orders to send back the train, as we were at our wit's end what to do with so large a party of ladies at Las Conchas, where there are no hotels, and no accommodation whatever. The manager's answer was a long, official rigmarole; laying the blame on us for being late, and saying that it was impossible to send another special for our use that night, that the ladies would have to manage as well as they could, and that he was sorry they were 'furious,' as expressed in the 'empresario's' telegram, but he could not help it. Special, indeed! Why, it was our special, for which we had agreed to pay nearly $2,000 ($1,850) that we wanted, and which could easily have returned, as the line must have been clear from Belgrano outwards. However, we had to swallow this specimen of Mr. Railway civility as coolly as we could, trying not to choke with it. Luckily most of the young ladies' mothers were present, and the rest were under the charge of the lady 'chaperone.' The next question was 'what's to be done?' An idea was to sleep in the railway cars at the station, but visions of aching bones and stiff joints soon put that out of the question. Then we thought of getting carriages from San Fernando, and hiring rooms in a hotel, a great expense for the few who gave the 'pic-nic,' and whose pockets the $2,000 for the unlucky special already lightened to a considerable extent. Finally, the officers came to our relief again, showing how much more American officers cared for the comfort of their English cousins than English public officials who are paid by the public to serve them. They proposed that we should return on board, continue the interrupted ball, and then decide what to do, which was adopted. When we arrived on board the Wasp the Captain generously offered the entire wardroom for the use of the ladies, and, to insure comfort, the officers of the Shamokin likewise offered them theirs. The ball-room was augmented by the arrival of some ladies from the Tigre and Las Conchas, and dancing kept up to a late hour, when the ladies retired to their improvised apartments and the gentlemen to conduct the shore ladies home, all seemingly well pleased at having got clear out of the special train predicament.

The first train the next morning found the party waiting for it at the station—our 'special' experience having taught us a lesson—and we arrived in town none the worse for staying at the Las Conchas a night; but joining with the passengers who heard our tale, and were surprised at this large party of ladies, in exclaiming on the *barbaridad* of the case and the want of accommodation for the convenience of the public in refusing to wait a quarter of an hour with a special train when it was obviously so difficult to be punctual to a minute. Special trains on this line have been known to wait two hours, and only the other day I saw one waiting for a long time for the party of the British Minister at the Tigre. But we were not British Ministers and had to suffer for it.

A more successful party in every other way could not have taken place, and all must have returned charmed with Las Conchas, charmed with the pic-nic, and, above all, charmed with the exceeding kindness of the officers of the Wasp and Shamokin.

EDITOR'S TABLE.

The sanction by the Deputies on Wednesday night of the Exchange office bill has produced, as a matter of course, a very great effect, although we are not disposed to regard it as anything but a mere temporary measure, and by no means fraught with the dangers anticipated. Many of the first merchants in town stamp it as a legal subterfuge for an illegal emission. The farmers, we hope, will reap some advantage from the measure, inasmuch as it will raise the price of gold, and consequently improve that of wool; regarded in this light the measure cannot be said to be destitute of advantages. It is also surmised that as it will make money more abundant it will reduce the rate of discount, which is at present so high. Measures such as the one in question generally speaking entail consequences least anticipated, and it remains to be seen the real working of this hurried relief bill. We notice that our colleague the *Nacion* calls on the Governor to veto the bill, but we pause before going so far as this. If the bill survives the discussion in the Senate, and is sanctioned by both houses, we believe the Governor would do best by letting the scheme take its chance, and go for what it is worth, since should it place the bank in a perilous position, a decree from Government will avert the danger. We cannot however disguise the fact that the real object of the bill is to depreciate the paper money and prohibit its possible improvement. Since patacons cannot go below 25 by the Exchange office scheme, but may go up to 50. We are not, however, of those who believe the world is coming to an end, or that the Deputies and Senators combined can bring the country to the brink of an abyss, which may swallow us all up. The country is young, strong and sound, and if the Exchange office works badly we shall be able to right ourselves. People who hold paper money will of course at once buy gold. A small run on the bank may ensue, but it has plenty of bank note paper, good presses, and the law authorizes the Directors to emit ad libitum to exchange for gold, so the dangers to that institution are more remote than imminent. The new board of Directors has been named; they are all good men, and most of them subscribers. Dr. Ugurte is a new name in the bank, but he stands high amongst us, is a splendid speaker, and we believe, if the truth be told, of Irish descent, his real name being O'Carty. We publish a biographical sketch of the Directors, which may interest our readers.

The packet left yesterday and took down to Montevideo our active agent Spruenk, who had been sojourning for a few days in this city. His connection with the *Standard* has almost as effectively changed his nationality as Bismark has the Hanoverians. We hope soon to be able to accompany our departing friends on board, as a little steamer, for port service is hourly expected here. The whaleboat system is attended with the greatest inconvenience; in the finest weather it takes a day to go out to the roads and come back, and some times (as in the case of the German we heretofore mentioned) it takes no less than seven days.

On Wednesday the launching of Marshall's new steamer was attempted, but it appears that the river was not sufficiently high, and after continued and ineffectual efforts which lasted up until 9 p.m. the beautiful steamer had to be left on the banks of the stream.

The new steamer Pingo made her trial trip in the Uruguay, which was most satisfactory. She has been chartered to run between Paysandu and Salto.

We hear of a most miraculous escape ot a native gentleman in a pulperia at Flores the other day. It appears that Sr. A. went in company with his father to get a bottle of English porter which the Dr. had ordered for one of his children; when he entered the store a gaucho saluted him and remarked how strange it was that a gentleman from town should enter a pulperia; suddenly drawing a long knife, he was about to stab Sr. A., when the old gentleman lifting his walking-stick intercepted the blow, the knife rebounded, cut the would-be assassin's mouth and face terribly, from the effects of which he expired that night. The Justice of Heaven seems to have overtaken the fellow.

The Senate has been discussing the new land law, and Dr. Avellaneda, the Minister of Government, who is quite 'au fait' with the question made a luminous exposition of the law. The Senators have introduced some reforms, which as yet have not been made public.

We regret to announce the demise of our popular and deserving friend, Capt. Douglas Price: the funeral takes place this afternoon: see obituary notice.

There is great anxiety to know where the new exchange office of the bank will be opened; as there is no room in the Bank-building, the Directors will be obliged to rent one of the houses in front, probably Dr. Tejedor's or Sr. Pacheco's.

It is a very significant fact that some of our principal English residents have sold off their coaches; the reason they allege for this is the difficulty they experience in getting good steady coachmen, and the high price of fodder.

It is calculated that a little over one million of arrobes of wool have arrived in the market, and of this only half a million have been sold. The stock on hand in the deposits is estimated at 600,000 arr.

We hear that the American Admiral, Admiral Godon, is at present sojourning at Perry Castle, Barracas.

The basura-cart nuisance has ceased at the South Plazas, and now the pantanos are being filled up with earth.

A gentleman from Mercedes, Banda Oriental, assures us that land about that neighborhood cannot be got under twenty-two thousand patacones per league; this seems to be an excessively high price, as right across the river, in the Province of Entre Rios, splendid pasture-land, as good as any in the Banda Oriental, can be had for half that sum.

LAND SALES IN ROSARIO.

(FROM OUR OWN CORRESPONDENT).

Rosario, Dec. 22nd, 1866.

As your submarine telegraph from Montevideo has not yet stretched any of its feelers towards this point, we cannot hear what kind of weather you have in Buenos Ayres; but if it be as hot there as it is up here, it would be only an "out of the frying pan into the fire" kind of transmutation to go down to you for change of air. The weather during the week has been so scorching in Rosario, that even to look at the thermometer was a labour; and so as I walked along the streets a few days ago, on my way to Wilde's auction rooms, my reveries were very distressing. In parts of India, I am told, it is often so warm that no persons except Englishmen and mad dogs are to be seen in the streets at mid-day, and there the general style of clothing is no more than a straw hat and a pair of straps, with a collar and tooth-pick for Sundays. Sidney Smith once said it would be very convenient for an intertropical residenter to have power to shake off his skin, and sit in his bones for coolness; and just as I was thinking how the land from the Parana to the Andes would ring with blessings on the head of Governor Oroño, if he would pass into law any of the forementioned latitudinarism of dress, I found myself entering Mr. Wilde's auction room.

Although the sale-room of our Rosario George Pobins presented somewhat different appearances from what one sees at Tattersall's, Christie and Manson's, or Dycer's Repository in Stephen's Green, it was nevertheless very refreshing to the sight. You know, I dare say, that Arispe's café, where there is an ice manufactory, stands alongside; and as we entered we saw on the table a lot of maps and pamphlets, whilst at the lower end were glasses of sparkling Alsop, each containing a piece of ice about the size of a Limerick turf.

But the auction bell rings, and the sale is announced. About 40 persons were present, and Mr. Wilde explained the conditions of sale—one third of the price to be paid in cash at the time of purchase, another third at the end of three months, and the remaining third at the end of six months. Another thing was, that no fixed time is necessary for that expressive word 'poblar,' and that it was optional for any person present to choose a lot for bidding.

When I had got as far as this—I am writing in the coolness of Arispe's coffee-room—I found the supply of ice for the day exhausted, and some of my countrymen came in for a game of billiards, so I must ask you to let me put off till 'mañana' a detail of the lots—the prices they brought, and the names of the buyers.

Dec. 23rd.

The auctioneer, after having distributed a number of pamphlets describing the lots, offered No. 1 for sale. No bid. He then asked the gentlemen present to select a lot, when No. 29 was called for, and although offered for competition, no bid was made, even by the gentleman requesting it to be put up. Another call was made for half of the lot No 41, but as each must be sold in its entirety this demand was not complied with. No. 44, containing 4 leagues, was bought for 1505 patacons per league by Major Hall. The second lot set up, No. 51, containing between three and four leagues, was knocked down to Major Hall for 1645 pats. per league, after a sharp bidding between that gentleman and Don Antonio Zubelzu.

The 3rd lot put up was No. 47, and was sold for 1700 pats. per league, to Ledesma Hermanos, of Rosario.

The 4th lot put up for sale was that marked No. 38 on the plan and pamphlet. It consists of three leagues, but as a third of it had been disposed of by private contract, the remaining two leagues were bought at 2,010 pats. per league, by Señor Don Camilo Aldao.

The 5th sale, No. 34, had already been disposed of in the one-third, and the remaining part, being likewise 2 leagues, was bought by Camilo Aldao, for 1830 pats. per league.

Lot 6th, of which one-third had been also sold, and two leagues left, was knocked down to Camilo Aldao for 2,080 pats. per league.

The 7th sale was lot No. 33, three leagues, of which one had been previously sold. This was bought by Sr. Don Pedro Rojas.

Bid the 8th was for No. 52, containing four leagues, and was sold for 2,010 pats. the league to Capt. Brandt.

The next lot put up was No. 49, being one of four superficial leagues, and knocked down for 1559 per league to Mr. Charles Bollaert.

The 10th sale was No. 53, containing a little over four leagues, and bought for 1540 pats. per league by Don Antonio Zubelzu.

Subsequent to this was put up No. 48, of four leagues, sold for 1950 pats. to Ledesma Brothers, of Rosario.

The 12th sale was No. 45, of four leagues square, knocked down to Brandt and Bollaert, for 1950 pats. per league.

After this, lot No. 39, consisting of about 2⅔ leagues, was knocked down to Antonio Zubelzu, for 1720 pats. per league.

No. 40, of about the same extent as the preceding one, was bought for 1505 pats. per league, by Don Maximo Parfait.

No. 35, of four superficial leagues, was sold to Antonio Zubelzu for 1505 pats. per league.

It may be seen by the two last biddings that the sale was getting slow. Who could have energy to bid in such weather? And the auctioneer announced that the sale was adjourned to next day.

I may add that all these lands are in the Department of Coronda or San Geronimo, at various distances of 10 to 20 leagues from the railway; and they were all set up at a minimum price of 1500 patacons per league, so when the auctioneer saw only an advance of 5 dollars in the two last sales over the set-up price, the postponement was a decided expediency.

Before the room was cleared two more sales were effected—of the lots 1 to 19, at the top of the map, and in the department of the capital. These, it seems, had been surveyed by Mr. Campbell, the original Central Argentine Railway engineer, and lie in a line directly west of the Colony of Esperanza. Of these, Nos. 11 and 12, containing six leagues, were bought for 825 pats. per league by Camilo Aldao; and Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 13, 14, 15, 16, 17, 18, 19—in fact, the whole of the square remaining, comprising an aggregate of beyond 50 leagues, was knocked down for 810 pats. per league to Don Antonio Zubelzu—it is said for Don Tomas Armstrong.

In my next I shall give you details of the other two days' sale.

DEATH OF DR. PINEDO.

We regret to record the awfully sudden death of Dr. D. Mariano Pinedo, ex-Judge of Commerce, cut off at the early age of 32 years, by an attack of apoplexy, supervening on excessive sea-sickness while returning from Montevideo on Monday in the Villa del Salto.

This estimable gentleman, and already distinguished jurisconsult, belonged to one of the leading families in Buenos Ayres, where his loss creates a void that cannot easily be recompensed.

The immense cortege which yesterday followed the mortal rumains from his late residence in Calle Florida to their last resting place at the Recoleta affords eloquent testimony of the regard entertained for him by "troops of friends," native and foreign, to whom his upright conduct, gentlemanly manners, and genial disposition endeared him in no ordinary degree.

THE SHOWER OF METEORS.

(From the *Daily Telegraph*.)

A beautiful and wonderful sight was presented to the eyes of all those who were on the watch on Tuesday night for the promised marvels in the sky. A frosty air had taken the place of the wet and cloudy atmosphere of the preceding day, and the great dome of heaven was clear for the mysterious performance. About midnight it began in earnest, and the mind must have been ignorant and careless indeed which was not impressed with that celestial pyrotechny. An almost incessant flight of bright and flashing bodies from east to west, in arcs of faint or vivid splendour, scored the midnight and morning sky till day-break dawned. Some drew a chord of silver radiance over apparently a vast section of the heavens; ~~some but~~ sparkled into existence and then directly died again; some were only seen as dim white trails upon the dark background. Here a brilliant nucleus darted along with a tail of silver spangles behind it, which made it seem so like a heavenly rocket that there was a sense of disappointment when it merely vanished, instead of brusting with an immense explosion into a girandole of planets or asteriods. Then another ball of white fire without any spangles seemed bent on plunging into the midriff of Orion, or knocking a star clean off the Great Bear's muzzle; while now and again there would be lines without ball at all, and faint distant gleams, and dim things of glory like the ghosts of illuminated clouds. What was strangest, perhaps, about the spectacle, was its silence: one half-expected that such a *feu-de-joie* among the worlds would be accompanied by distant and rumbling noises, echoes of the hissing speed which ignited the meteors, whisperings in rolling thunder of their birth and dissolution. But the hundreds upon hundreds of these scintillating bodies—whatever they be, whencesoever they come, and whithersoever they go—which displayed their lovely vagaries, did it in solemn silence, that lent a peculiar character to the sight, and made it harder to believe, what astronomers tell us, that all the meteors were within our own atmosphere, and owned their appearance to that very fact.

Shooting stars are common enough of course, and at certain seasons they occur pretty frequently; but Tuesday night was quite as marvellous as the scientific men predicted. He who was in bed during the display lost a sight to thoughtful eyes worth seeing—a heaven full of winged and silent wanderers, perpetually starting forth perpetually vanishing. Indeed, we know not whether any simile was more suggested by their silence, their flight chiefly in one direction, and their steady sweep, than that of winged creatures. They looked like no earthly fireworks, but rather resembled silver birds wending their way one after another to some mysterious star-heronry in the firmament—or if not birds, then the forehead-planets of angels and archangels, summoned in splendid cohorts and regiments to the service of God, and hastening with the lamp of their world lighted to the Divine rendezvous.

Whoever missed the sight must wait thirty-three years and a quarter for the repetition of the exhibition. That will be about the end of the century—the year of grace 1900. Will those that see the stars shoot then know a great deal more about it all than we do? Will they laugh with pity at our poor and uninformed appreciations? Will it be a much better age than this, with no terrors of death, no contests of religion, no knaves, no fools, no Tories? The world travels fast nowadays, in events as well as space, and it is a wonderful thing to reflect upon what has happened in it since the celestial pyrotechny was last celebrated. And speed breeds speed, and events hasten events; so that without doubt the balance of the century will witness some wonderful consummations. Well, it is posterity's concern! And posterity just now is making potbooks and eating jam on its bread and butter; taking more interest in a good sixpenny rocket than in all the stars that shot on Tuesday between Sagittarius and Hercules. Those who are older knew enough to wonder and to wait, assured that the Koran is right when it asks, in the name of Allah, "The heavens, and the earth, and all that is between them, think ye I have created them in jest?"

First price of patacons,	23 50
Second	23 85
Last,	23 50

The sudden rise in the price of gold to-day was solely attributable to the Deputies having passed the Exchange-office bill last night. The greatest excitement reigned in the gold market to-day. Patacons ran up to 23.85, but succumbed in the afternoon. Owing to the great scarcity of paper money wherewith to pay for the gold already bought, and the many rumors afloat as to the rejection of the bill by the Senators, the bears are furious, and the losses can only be computed in millions. A meeting is talked of as likely to come off at the Bolsa to protest against the measure.

The news by the French packet was telegraphed by Mr. Proudfoot to Mr. Oldham, and read on the Bolsa. It possesses very trifling interest, beyond that which we already published. Peace, it is said, has been concluded between Spain and Chile. Tallow fallen 6d; hair gone up; hides rather flat; and wool without any improvement. The immense preparations for war going on in Europe is creating great distrust in England, where Cabinet meetings are the order of the day, said to be in connection with the question of the States and Canada.

The excitement touching the paper dollar assumes now a very serious appearance, names are given and charges made of the most damnatory nature, which compromise in a measure the very credit of the country itself. Until, however, they are exposed on the black board, as is threatened, we cannot take cognizance of such rumors, which, to say the least, are of a most slanderous nature. The meeting, which is spoken of as headed by 12 Deputies, will, it is said, take place to-morrow [Friday], which, it is presumed, will be very well attended. It leaked out in the discussion in the Chambers last night that Dr. Velez Sarsfield had warned the Minister against the proposed scheme. Owing to the delicate position of the Bank at present, and the fact that the much talked of capital of the bank could not be relied on, as it was already invested in Public Funds valued at 75. The bill has to go before the Senate, where it will be discussed, and the final decision cannot be known before Monday or Wednesday next. Great stress is laid on the immorality and illegality of sanctioning under any pretence a new emission of paper money. The measure, it is argued, is working the greatest injury to the Provincial Bank, and highly prejudicial to the credit of that institution, and to the country in general.

The time sales of specie are as follows:

The steamer Newton, of the Astronomical Line, has arrived in ballast, having found no home cargo in Santos. She came down here very apropos, to fill the want of a steamer for Antwerp. Messrs. J. P. Boyd and Co. the indefatigable agents, will no doubt avail themselves of this favorable opportunity to meet the wants of commerce, and despatch this steamer with a full cargo to Antwerp with the least possible delay.

We received yesterday, thanks to Capt. Shore, of the Newton, the London 'Evening Mail,' of 23rd November—being one day later than the French packet. The Russian Loan of 6 1/2 per cent was introduced in London and Amsterdam.

The scrip of the new Russian Loan is quoted 1½ to 1¾ pm. The total amount of this loan for London and Amsterdam is £6,000,000, and the applications here are stated to have already reached about £20,000,000.

Advices from Frankfort mention that there is now more animation on the Bourse, and that the great plethora of money in the market has brought the rate of discount down to less than 3 per cent. An opinion prevails that no warlike complications are to be apprehended for the present, and this draws out the hitherto hoarded supplies of coin. Large purchases of American securities have raised prices to a point above those of London or New York, so that remittances of bonds come in from all parts.

The rate of interest in England is still 4 per cent., in the street 3½ per cent. Tallow 43s. 6d.

Buenos Ayres, Dec. 24, 1866.

MARRIAGE.

In the Capilla del Señor, on the 22nd Dec., Mr. William Murtagh, of Lujan, formerly of Westmeath, to Jane, second daughter of Mr. John Fox Capilla.

DEATH

On Christmas day, at San Pedro, after a protracted illness, Capt. Douglas Price, late commander of the steamer Susan Beirne, aged about 38 years. Deceased was a native of Kircudbright, Scotland, and for many years connected with the steamboat service of the River Plate and Paraná. He was very popular and much esteemed, both for his professional skill and experience and for his urbanity of disposition. He commanded the Asuncion soon after the River Paraguay was opened to steam-traffic, and subsequently the Estrella del Norte and Esmeralda on the Rosario and Corrientes routes.

We have frequently had occasion, in the columns of this paper, to record testimonials from his passengers in favor of Capt. Price, and his demise will be regretted by all who knew him. He leaves an afflicted widow and family to deplore his loss.

The funeral will take place to-day, Friday, at 5 p.m., from No. 162 Calle Parque.

WEED.

WEED LOCK STITCH

The Weed Sewing Machines have been over Twelve Years in the hands of the Public, and have obtained the confidence of all who have used them.

They are better adapted to all the changes required in Family Sewing than any other Machine in use. They have entered into the manufacturing of Boots and Shoes, and, in fact, all kinds of leather work, in the United States and through Europe, with a success unknown to other Machines.

In all Fairs and Exhibitions where they have been brought into competition with other Machines they have obtained the highest premiums for their Simplicity of Construction, making them less liable to get out of order and more easily understood, and for their great adaptability to all kinds of work for Families and Manufacturers, as they sew on any fabric with all kinds of thread or silk.

The depot for the sale of these Machines is located at 109½ Calle Florida, where all in want will do well to call and examine before purchasing. All parties desirous of learning to operate the Machines can obtain full instruction without the necessity of purchasing. 171 | 1m,d27

COTTON GINS.

BURGESS & KEY

Obtained the SILVER MEDAL for their Improved Emery's American Cotton Gins, at the Turin Exhibition.

The Report states that "the two Gins exhibited by Burgess & Key were found capable of ginning a greater quantity of Cotton than all the other Gins of different systems."

The many improvements made in these Gins by Burgess & Key, have been the result of experiments made on every variety of Cotton, and also from experiences in Egypt, India, Italy, Greece, Smyrna, Australia, &c., &c. where many of the largest Ginning Establishments, have adopted these Gins, and in one establishment, each of which will turn out 300 lbs. of clean cotton per hour.

The capacity of the Gins varies from 25 to 300 lbs. of clean Cotton per hour, according to the size.

Burgess & Key's Steam Engines, Horse Works, Presses, Pumps for Irrigation, &c., &c., are specially adapted to cotton growing countries.

The only cure for foot rot in sheep

AND A CERTAIN DESTRUCTOR FOR MAGGOTS, IN ALL SORTS OF ANIMALS.

Let the sheep infected with this disease in the feet be put into a dry place, after remaining an hour, take a brush & cleanse the dirt from between the claws, then shaking the bottle well, dip a stick or feather into the liquid and anoint the diseased part all over, after which let them stand dry for an hour; if properly applied, one application is generally sufficient.

To destroy maggots it may be used in the same manner but sometimes require to be applied three times; it also cures all sort of ulcers arising from them, and may be applied to any cut to prevent the flies from forming maggots.

Experience has proved it to be the best preventive that can be applied after castrating stallions and one application of this liquid may save a valuable animal.

Prepared and sold only at S. Bishop, Apothecary, Chemists and Drugists No. 65, 67, 69 Calle Defensa. B. Aires. 133, 1m, d5

SAVINGS BANK.

BANK MAUA AND CO.
101--Cangallo--103.
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artizans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo from nine a.m. till Three p.m. on Week Days and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, September 19, 1863.
P.P. MAUÁ & Co.,
WILLIAM LESLIE.

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

RIVER PLATE STEAM-SHIP COMPANY.
LIVERPOOL AND RIVER PLATE DIRECT.
NAMES OF STEAMERS.
LA PLATA (new).
ADA, CORDOVA,
URUGUAY, LEDA,

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 10th of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

In order to facilitate immigration to these countries the rates have been reduced as follows—

1st Class..........£35.
2nd „ ....£25.
3rd „ ....£16.

Return Tickets will be issued for six months at the following rates—

1st Class..........£65.
2nd „ ....£45.
3rd „ ....£30.

These boats are excellent opportunities for families visiting Europe, more especially when consisting of Ladies and Children, having large ladies' cabin, and carrying an experienced stewardess.

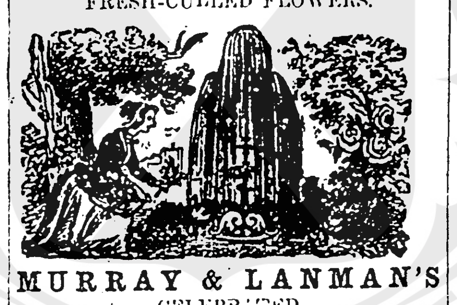
THE LEADING PERFUME OF THE AGE,
FROM
FRESH-CULLED FLOWERS.



MURRAY & LANMAN'S
CELEBRATED
FLORIDA WATER.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a delightful buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

FAINTING TURNS,
NERVOUSNESS,
HEADACHE,
DEBILITY,
AND
HYSTERIA,

It is a sure and speedy relief. With the very *élite* of fashion it has for 25 years maintained its ascendancy over all other perfumes throughout the West Indies, Cuba, Mexico, and Central and South America, and we confidently recommend it as an article which, for soft delicacy of flavor, richness of bouquet, and permanency, has no equal. It will also remove from the skin

ROUGHNESS, BLOTCHES,
SUN BURN, PIMPLES,
AND FRECKLES.

It is as delicious as the Otto of Roses, and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

COUNTERFEITS.

Beware of Imitations. Look for the name of Murray & Lanman on the bottle, wrapper, and ornamental label. Prepared only by

Bate & Co.'s Photographs of the War.
(CLOSING OUT.)
GREAT REDUCTION IN PRICE.

A small lot of these pictures still on hand at Loedel's Book Store will be sold at the remarkably low price of

100 DOLLARS A SET.

"These views, taken at the Paso la Patria, Itapiru, Boqueron, Potrero de Piris, Tuyuti, and other points of importance, by Don Javier Lopez, commissioned by us and protected by the Oriental Government, are invaluable, as much from their historical interest as from their giving a faithful portraiture of the horrors of warfare. Collection No. 1, consisting of 12 photographs, includes the interesting picture of the Soldiers at Mass, the Telegraph Station, the Death of Colonel Pallejas, &c. Collection No. 2 includes the Ruins of Itapiru, General Mitre and his Staff, Heaps of Paraguayan Dead, Gran Chaco Indians, Paraguayan Prisoners, &c.

Several thousands of these views having been already been distributed in Brazil, the Banda Oriental, Corrientes, Rosario, Salto, &c., the original negative plates have become worn out, and we strongly advise any one wishing to obtain a correct idea of the War with Paraguay, as seen through the 'camera obscura,' to improve the present opportunity, as no other of these views will ever again be put in the market.

CONSUMPTION,

Chest Affections, Chronic Cough, General Debility, and Loss of Nervous Power.

DR. CHURCHILL'S
HYPOPHOSPHITES.

The following are the preparations used by most eminent members of the Medical Profession, in every country in the world, for the cure of the above complaints:—

Syrup of Hypophosphite of Soda,
Syrup of Hypophosphite of Lime,
Pills of Hypophosphite of Quinine,

and in cases where ferruginous preparations are required (chlorosis, anemia, etc.,) the

Syrup of Hypophosphite of Iron,
Pills of Hypophosphite of Magnese.

These valuable medicines have saved the lives of many consumptive patients. Even in the third stage their beneficial effects have been manifested frequently. In every instance, however far advanced in the disease, the patient will find a marked improvement, both in local and general symptoms. There will be observed a remarkable increase of nervous power, a better appetite, greater regularity of the bowels, better digestion, less cough, less expectoration, less susceptibility of catching cold, less perspiration at night, etc.

Dr. Churchill's Hypophosphites are sold, with directions for use, at four francs per bottle, in France, by Swann, Pharmacien, 12, Rue Castiglione, Paris.
